DOMINION ELECTION RUMORS.

Although the rumors that have got into circulation in the Northwest respecting Dominion elections have had reference to elections for the territories only, still election rumors have been published in other parts of the Dominion to the effect that Parliament would be dissolved and the general elections follow in consequence. The indications are, however, that the general elections will not be brought on immediately. Since the result of the Quebec local elections have been fully discussed in all its bearings and all the attendant circumstances carefully weighed, it is generally conceded that had the local elections been deferred several months longer, the Riel wave would have spent its force, and a strong reaction set in so that the Rielites would have been stranded high and dry never again to float on the popular wave. Such being the case it is not likely the general elections will take place before next spring. Then as to the reported November elections, there are strong grounds for believing that they will take place almost immediately, but the people of the Territories of all nationalities or religions, whether English or French Catholic or Protestant, care very little what they think in Quebec of the hanging of Riel. They are all of one opinion that he suffered the just penalty of his crimes, and care more for the development of the country, now that all rebellious or restless feelings have been allayed, and a lasting peace and contentment established. Hence it is that Reformers and Conservatives alike in the Northwest are desirous of sending men to Ottawa who will, as Hon. Alexander Macleod has recently expressed himself, place country before party, and will give the party in power to understand that they go down there as the representatives of the Great Northwest, greater in extent than all the rest of Canada, and that they will not allow themselves to be considered merely members of either party to vote at the bidding of the leaders. Such is the universal feeling of the electors of the Territories. This shows that they possess more than average intelligence, and they may be relied upon to choose men who will well and worthily represent them.

It is probable that Sir Donald A. Smith will be a candidate for the representation of Winnipeg in the Dominion Parliament at the next general election. Both political parties appear to favor his candidature.

MR. W. D. PERLEY FOR EAST ASSINIBOIA.

A few weeks ago we published an article headed "THE PROGRESS nominates Mr. Perley." It appears that some were led to understand that we arrogated to ourselves the privilege of nominating that gentleman, but such was not our intention. We were fully aware of the fact that his name had been favorably associated with the representation of East Assiniboia ever since he had so successfully carried out his mission as delegate to Ottawa from the North-West Council. THE PROGRESS was only the means through which this general feeling found public expression. Owing to Mr. Perley's many qualifications for the position, it is with pleasure that we extend to him our hearty support. He is first and foremost a Northwest man. Were he elected, the people know, from his past record, that they could rely upon him to fully represent their interests; he would not allow the affairs of his constituents to be made subservient to those of party. Were he in the House it would be useless to apply the party whip to make of him a mere voting machine, and he would thus command the respect of both parties. Mr. Perley has shown by his course as a member of the Northwest Council that he is a man who will not spare himself in the performance of his public duties, and that whatever he undertakes will be successfully carried out so far as it lies in his power. In the accomplishment of his purposes he is most persistent and persevering, and practical withal; these qualifications, together with his oratorical abilities, would compel attention to his demands on behalf of the North West, and when he would come in contact with the heads of the departments, they would not be able to bow him out or put him off with formality or reticence. Then too, he is not a political adventurer, but a man of character and standing in the country. He came to the Northwest and invested his all, and has been successful from a business point of view, while at the same time identifying himself with the public affairs of his district as well as those of the whole Northwest. Whether the elections take place this fall or next spring, the present indications are that Mr. W. D. Perley will be the representative in the Dominion Parliament for East Assiniboia.

HONOR TO WHOM HONOR.

Recognizing the injustice of certain attacks on His Honor Lieutenant-Governor Dewdney, the Regina Journal (Reform), in its issue of last week, very concisely states the facts respecting the powers of the Lieutenant-Governor and the manner in which he has exercised them. The "slap at the Dominion Government (and Mr. Dewdney) anyhow" which the Free Press took a few days ago is thus shown up in its true colors. It must have wilfully misrepresented the truth when it charged the Dominion Government with conferring very great powers upon the Lieutenant-Governor of the Northwest solely, when it should have read "Lieut.-Governor in Council." The following is the article from the Journal:

"Much is being said in the Dominion press, almost from day to day, respecting the exclusive powers of the Lieutenant-Governor to disburse monies appropriated by the Federal Parliament for the benefit of the Northwest Territories; and it must be admitted that the objection to such authority being vested in the head of the Executive alone is well founded. But so it is and has been since the organization of the Territories. Governor

Lord Co. administered. It should however, be stated in justice to Governor Dewdney that when objection was raised by the Council to their usual exclusion in such cases, His Honor freely expressed his concurrence with their view, and we may add from reliable information that practically the Council had a voice in the constitution of the monies referred to the members being consulted from time to time as to the wants of their respective localities. We should also state that the necessary change has been promised by the Ottawa Government in reply to representations by the late delegation. As regards the power granted by a recent order-in-council to levy taxes, incorporate companies, &c., our various contemporaries are unnecessarily excited, the order being for "empowering the powers of the Governor in Council of the North-West Territories."

The Hon. Jas. A. Miller, formerly Judge and Attorney-General of Manitoba, died in Winnipeg on Monday last from the results of injuries received by an accidental fall.

It is officially announced that the English Government is determined to maintain public safety in Egypt and not leave the country to disorder and possibly to fresh and disastrous revolution.

The Imperial cabinet at its first council since the recess decided to instruct Sir Wm. White, British Ambassador at Constantinople, to insist upon an immediate conference at Constantinople to consider the Bulgarian situation and to demand the suspension of Russian intervention pending discussion of such conference. The Porte is removing its attitude cordial with England and is in favor of the proposed conference. While Russia and France oppose the project Germany and Austria remain neutral.

The Lieut.-Governor of Quebec has intimated to Premier Ross the desirability of an early session of the new Legislative Assembly. In consequence the House will probably be convened in December. In reference to the situation of affairs in Quebec we have published from other papers articles on the matters supposed to effect the recent elections. It must of course always be understood that when articles or opinions are printed in our columns that we do not hold ourselves responsible only when we express our approval. Articles are frequently copied to give our readers an opportunity of ascertaining outside opinions on the topics of the day. It would appear after all things are calmly considered, the fight in Quebec was one of race rather than religion, that a great deal of French sympathy was created in favor of Riel and that it was not really and issue between Catholics and Protestants.

Hon. Mr. Foster, Minister of Marine and Fisheries, has been notified that the Dominion Government fishing expedition under charge Thomas Mowat, inspector of fisheries of British Columbia, has returned to Victoria, from a six weeks cruise off the west coast of Vancouver Island and the west coast of Queen Charlotte Islands. About four and a half miles off the west coast of Queen Charlotte, between these two points, black cod was found in very large quantities in 190 to 120 fathoms of water. Hauls were caught off the schooner weighing 100 pounds. Trawls were tested in different localities on the west coast of Vancouver Island. All along the coasts of the two islands, a great number of the young of the black cod were seen in all the inlets, and hundreds of barrels could have been caught by seine nets if they had been wanted. Mr. Mowat, who is an expert in fishery matters, pronounces the black cod the finest fish in the world, far surpassing eastern salmon or mackerel.

EDGELEY.

The first annual meeting of the ratepayers of our school district was held in the school house on the 2nd inst.

A fair number of the ratepayers turned out, to which reports were read from the secretary-treasurer and teacher.

Mr. W. C. Cameron and Mr. Fred. Whittingham were appointed auditors, and declared accounts correct.

Moved by Jos. Craig, seconded by Jas. Whittingham, and carried, that reports of secretary-treasurer and teacher be adopted.

The following statement by the Board of Trustees in regard to the past, present and future of the district and signed by the chairman, was then read:

With regard to the past it may seem to you that we have incurred needless expense on the district. But when you take into consideration the amount of opposition we have met with from those to whom we have a right to look for their most hearty support, it will be clearly seen that our expenses have been fully one third more than they otherwise would have been. (A statement we are prepared to prove at any time.) It seems strange to us that ratepayers will neglect the most important school meeting of the whole year, viz., the election of trustees, and allow men to be elected who only accept the office through a sense of duty. (And yet those persons can find time to come out to every subsequent meeting and oppose the welfare of the district. Thereby doubling the necessary expenses of the school district.

With regard to the present we may say that notwithstanding all those things we have a school second to none in any country school district in the Northwest today, and one which the School Inspector on the tour of his inspection declared was an honor to the district, and a credit to the trustees. It also shows the neat and substantial work of our popular builder, Mr. J. B. Robinson. We are also exceedingly fortunate in having secured the services of so efficient a teacher as Miss Nettie L. Delyan. While we view with pleasure the large number that have taken advantage of sending their children to a good school where they are trained to become useful members of society, we also regret to have to say that we did not avail ourselves of this privilege, but have allowed ill-fellings to overrule their better judgment. We think it would be wise on the part of the Northwest Council to pass an Act compelling all parties to send their children to school between the ages of seven and fourteen. For you find parties in all school districts who will not educate their children without compulsion.

With regard to the future it was thought by some that we were building the school too large but we are happy to say it has been nearly filled the past year, according to Government regulations; we hope, if spared, another year to be able to report a large increase in numbers, we will then be compelled to enlarge our school, for which we have made due preparations, we have also in reserve seat accommodation for twenty more pupils, which we trust will be occupied before the close of another year. We also trust before our next annual meeting to be able to report more favorably on the past. Hoping that all unjust opposition will have ceased and all parties working harmoniously and economically with us for the good of the whole district.

Allow us in closing to tender our sincere thanks to those who have so nobly stood by us and helped to bring about this happy result; you have given us your confidence and as far as lies in our power we will endeavor in the future as in the past to still merit your trust and support.

A vote of thanks to the Board was tendered by Mr. J. Craig seconded by Mr. W. C. Cameron for the efficient manner in which they had carried on the business of the past year, knowing what difficulties and opposition they had met with. Which was ably responded to by the chairman.—Communicated.

Supt. Griesbach, the officer in command of the Mounted Police at Edmonton has succeeded in capturing Lone Man, who is more than suspected of being deeply implicated in the massacre at Frog Lake last year. Lone Man, relying probably on the lapse of time since the rebellion, came into the post to lay a complaint about some stolen horses, when he was immediately recognized by Supt. Griesbach, and after a short examination placed in the guard room. He will be kept in prison pending the arrival of instructions from Ottawa.

Mr. A. G. McDonald returned from Edmonton on Sunday last, and brought specimens from the claims lately discovered above Edmonton. The rock is of a brick red, and light and soft like pumice stone. When ground the gold is found in exceedingly small particles, many of them being microscopic. Gold is found in the Saskatchewan below this deposit, but none above. The discoverers are jubilant, and think they have found a bonanza. Mr. McDonald says nearly the whole population of Edmonton has turned out, and that there is quite a boom. Mr. Haney, a well-known miner, is the discoverer.

An eminent authority on public matters, who lives in the West, says that the R-publicans will make one more presidential effort and will then be absorbed by the Prohibition party. The strength of the latter organization has come from the loins of the Republican party, and its raid upon the liquor interests here has unquestionably weakened the party that rallies to the support of Blaine. The Prohibition question is rapidly coming to the front in Canada, and the breaking up of existing parties there is only a question of a few years. If the temperance party in the United States becomes an active applicant for public support, in opposition to the Democrats, the effect will soon be felt in the Dominion, whose people take a lively interest in the affairs of their neighbors and closely watch the course of events here with an eye to the adoption of such measures as have resulted advantageously—commercially, morally and socially—to Americans. When Prohibition mounts the footstool of power in the United States Canada will not be long falling into line. No international boundary separates the work of those opponents of the traffic and they will be satisfied with nothing less than a continental victory.—Canadian American.

Again we have to notice with a feeling of pride as Americans, that success is attending the effort of the Canadian government to elevate the red man by teaching him the better ways of civilization and thus making him independent of the chase from which hitherto he had been accustomed to derive subsistence and support, which as the first best means of civilization. In spite of such faint flinders on the part of those who would in any country be "the government," the farm instruction out of recent years to the Northwest would seem to have done their work well on the whole. For as a result, the Indians have this year raised in many of the reservations, not only enough grain and vegetables to carry them through the winter, but they are also able to dispose of a considerable quantity remaining over and above what is needed for the use of those dependent upon them. And not only so, but as an evidence of their ability to do what ever they undertake well, it is noticeable that at the recent agricultural show at Regina, capital of the N. W. Territories, a large number of prizes (and some of them first prize) were captured by the Indians in fair competition with the white settlers. It is very creditable, and proves the absurdity to be rapidly vanishing the franchise which was conferred upon many of them by a recent act of Parliament.—Canadian American.

Mr. Blake's statement and the newspaper reports of an immediate dissolution of the House of Commons are stated on the highest authority to be totally unfounded.

An Ottawa Despatch says it is rumored that the North-West Central project will be abandoned, as its proposed route is being traversed by the Manitoba and North-western.

It is feared that the Canadian propeller Dominou, which left Port Arthur on Monday of last week with ten or fifteen passengers, has gone down in Lake Superior with all on board.

SUPPORT YOUR LOCAL PAPER.

Judge Davis, of the United States, says:—Every year every local paper gives from \$100 to \$5,000 in free lines for the sale of the local territory in which it is located. No other agency can or will do this. The local editor in proportion to his means does more for his town than any other 10 men, and with all fairness, man with man, he ought to be supported, not because you may happen to like him or admire his writing, but because a local paper is the best investment a community can make. It may not be brilliant nor crowded with great thoughts, but financially he is more of a benefit to a community than the preacher or teacher. Understand us now, we do not mean morally or intellectually, but financially, and yet on the moral side of the question you will find the majority of the local are right. Today the editor of local papers does the most work for the most money of any man on earth. Subscribe for your local paper not as a charity but as an investment.

The ex-elder of the Conservative press in Canada, when an organ rose and simply, sarcastically referred to the Senate as "my constituency" with Sir John in power—a body that merely registered the will of the Commons, an expression of opinion that must have shocked the cunning old Tories who asked not for such an admission from their mouthpieces; while they were endeavoring to give the Senate the reputation of being an independent assembly designed to foster good and check vicious legislation. But the fact is the Canadian Senate is merely the paper car attached to the Macdonald train. The Toronto Mail clearly sees this and vigorously champions the cause of Senate reform, though it does not intimate its preference for any particular plan. Second chambers are not popular with the masses nowadays. The Senate of the United States has become a rather bad place for millionaires; and the House of Lords in Great Britain does not, and cannot, feel the pulsations of public sentiment in the beneficial manner in which they sway the popular chamber in its legislative work. A master mind only can solve the problem and satisfy those nations which for federal purposes, will be satisfied with only one chamber. The Senate of the Dominion does not, it must be confessed, have much influence in public affairs. But age may improve it, and it should live in some shape. But those useless appendages in New Brunswick, Nova Scotia and Quebec, to wit, the Legislative Councils, do not deserve to exist. They are the most useless, legislative luxuries, are only calculated to swell the numbers of "honorable" and apparently live merely to exalt provincial humbugness.—Canadian America.

If the cheapening of non-intoxicants and the taxing of intoxicants are moves in the direction of temperance the Dominion Government can certainly be credited with legislation favourable to sobriety. One of the first things the Government of Sir John Macdonald did when it took office was to increase the duties upon spirits and to remove the excises duties upon tea and coffee. Those who "indulge" now pay a heavier tax than formerly, while those who confine themselves to the cup that cheers, yet do not inebriate, get their liquors free of taxation. But this is not half of the story. The construction of the Canadian Pacific railway has opened up a direct tea trade, and as a result the freight charges upon tea to Canada have been reduced by less than four cents a pound. The Canadian tea tax upon tea was three cents a pound. The removal of this tax and the reduction by four cents in the freight charges gives Canadians their tea at seven cents per pound less than in the old days. We consumed last year 18,250,000 pounds of tea. The four cents per pound saved on the transportation of a similar quantity this year will alone pay the interest at four per cent upon \$18,000,000 of the \$25,000,000 we use the Canadian Pacific Railway Company.

—Colonel William Kent, of Concord, N. H., ninety-two years of age, and a brother of the late Governor Edward Kent of Maine, is of the opinion, says the *Concord People* and *Patriot*, that he is the only person now living who heard Daniel Webster's first public address made in Concord July 4, 1826, at the old North Church, then the only church in town.

—Prof. Day, of Yale, in speaking of the work of the revisers of the Bible, now concluded, recently said: "You can not understand the immense comfort it is to be relieved, after a long twelve years of secrecy, from the necessity of declining to answer the questions of many of my best friends in regard to the rendering of particular passages."—*Harvard Lib.*

MURMUR.

—A man in New Mexico caught the bronchitis riding a pony. The first caught the bronchitis—*Chicago Current*.

—"What pains a father more than the cry of his infant child?" asks one man. We don't know unless it is the cry of his infant twins.—*San Francisco Herald*.

—"Not anything in your purse?" asked Mr. Bolt of his wife, as they sat down in the street car. "Yes, dear, I'm," she replied, sweetly, and Mr. Bolt paid the fare.—*Mercury*.

THE STARR KIDNEY PAD.

To Relieve the Suffering.
"The successful firm known as the Starr Kidney Pad Company, of Toronto, are about to introduce their old-fashioned and reliable proprietary medicines into this province. They manufacture Dr. Starr's Kidney Pad for lame, weak and sore backs, which have been sold long and extensively throughout Manitoba, Ontario, the lower provinces and in England. The cures effected by these pads are said to be marvelous, in relieving and curing those said to be incurable diseases known as diabetes and Bright's disease of the kidneys. Avoiding eastern M. P. pads, these pads are certainly the best remedy ever tried in this locality for kidney or urinary diseases. These kidney pads ought to have a large sale in this province, as there are many miners, fishermen, and railroad navies afflicted with kidney disorders, to say nothing of its prevalence among other classes of our people. The same company also manufactures numerous other medicines for the cure of other of the many ills which flesh is heir to. A general agent will be appointed for the province. We wish the company success."—*Victoria Daily Times*, Sept. 9, 1886.

The London Standard wants Lord Hartington to lead a Liberal Conservative party.

It is announced that the Bulgarian Government has decided to nominate Prince Alexander.

The constituency of Strasbourg has returned a German to the Reichstag instead of a Pole as formerly.

Turkey has entered into a contract with a German firm for the construction of twelve torpedo boats. They will cost \$1,500,000.

The Sultan has commanded the Turkish Admiralty to expend \$500,000 on men-of-war, in addition to orders for new torpedo boats.

It is stated the nihilistic propaganda, more especially in Southern Russia, is more active and flourishing than ever.

The Bulgarian Government refuses to comply with Gen. Karibalis' demand for the indefinite postponement of the Great Sobor.

Thirty miles of the Hudson's Bay railway have been graded, and several sections of rails for the line have arrived at Winnipeg.

The new Enfield rifle has been fruitfully rejected by the British army authorities as too complicated for service.

The London Standard hopes to see a Liberal Conservative party formed out of the amply existent materials, which Lord Hartington could develop and might hope to lead.

The relations of England with France are becoming critical. The War feeling is very strong in France, and it is reported that arrangements are being made for an attack on England in the event of her refusing to evacuate Egypt. It is said that her Chauvinism is only held in check by Germany, which refuses to sanction any overt act by the French.

—Mr. J. C. Richardson is building himself a new house.

—Indian Head Masonic Lodge met on Monday evening last.

—Mr. Milne, carpenter, is building for himself a new house.

—Slight fall of snow this morning, accompanied by high wind.

—Mr. A. N. Wismer is building an addition to his stove and tinshop.

—Galt and Saskatchewan coal will only be \$6.50 per ton this winter.

—The frame of Dr. Carthew's new drug store is up and the building is being rushed to completion.

—Hallowe'en was kept by the boys in town in the usual way, although their pranks were of a trifling character.

—Mr. H. A. Axford and bride returned from their wedding trip on Thursday night last and have settled down to housekeeping.

—A dinner in commemoration of St. Andrew's day will be given at the Queen's hotel on Tuesday, Nov. 30th, at 20 o'clock, to be followed by a dance.

—Indian chiefs Star Blanket and Big Child, accompanied by Mr. H. Currie, interpreter, went north from here on their return from Ottawa on Wednesday.

—The mounted police stationed here have been instructed to order back to their reserves the several lodges of Indians that are located in the vicinity of the town.

—Mr. Wm. Whyte, General Superintendent, R.R. Kerr, General Passenger Agent, and C. Shields, Assistant Superintendent, of the C. P. R., went west over the line on Tuesday.

—Qu'Appelle Lodge of Free Masons will hold its next regular communication on Tuesday evening next, the 9th inst., in the new Masonic Hall which has just been completed.

—The proprietors of the Leland House, Messrs. Love & Raymond, finding themselves cramped for room, owing to their increasing business, are building two additions to their hotel.

—Mr. F. G. Callander, M. D. S., Toronto, consulting and practical dentist, will be at the Queen's hotel today, tomorrow and Saturday. An early call will receive prompt attention.

—We expect to receive at The Progress store in a few days a very large stock of fancy goods, dolls, toys, Christmas cards, etc., comprising an immense selection of goods from which to choose Christmas presents.

—The public well in the centre on the trail to Indian Head is giving a good supply of water. The well in the rear of the Leland House is being deepened, and another is being dug a short distance east of the C. P. R. section house.

—We understand that the Bishop of Qu'Appelle having heard that various objections are being taken by some members of the congregations to certain things now done in the service at St. Peter's Church, proposes to preach on Sunday evening next, and to give the fullest explanation of all the things against which he has heard objections raised.

—The chancel of St. Peter's Church was opened and dedicated on Thursday last. There was a large congregation and the musical portion of the service was ably rendered by the choir. The Bishop was the preacher and he referred to the fact that the chancel was a memorial gift (in memory of the late Canon Anson, Canon of Windsor) by his sister. The opening services were continued on Sunday when choral services were rendered by the choir in a very creditable style. A solemn "Te Deum" was sung after the evening service as an act of thanksgiving. The performance of the latter was highly creditable considering the very short time that the choir has been under training. The Rev. W. E. Brown was the preacher.

OPENING OF THE ROMAN CATHOLIC CHURCH.

On Sunday last the first sermon was held in this new edifice, which occupies a prominent position on Walsh Street. Two clergymen arrived from the R. C. Mission at Qu'Appelle on the preceding day for that purpose. Father Magnan, Superior of the Mission, and Father Campeau. Previously to the celebration of Mass by Father Campeau the church was blessed by both Priests, according to the directions of the Ritual. After Mass an impressive sermon was preached by Father Magnan on the proper dispositions with which to participate in church worship, the church being the House of God, the gate of Heaven, the place where throughout life the faithful are constantly assisted by the preaching of the holy word, and the administration of the Sacraments.

A collection amounting to \$27 was taken up, several members of other churches who were present contributing.

Monday being the Feast of All Saints, appropriate services were held, and offices of the Special Jubilee commenced as recently directed by the Pope, for the benefit of the church throughout the world.

Our Roman Catholic neighbors are to be congratulated upon their zeal in thus providing, and at this early date, a neat and sufficiently commodious building for public worship. We understand that His Grace Archbishop Tache was much pleased by this good work, and contributed handsomely towards the expense.

Both Went Back.

Several years ago, there lived in Dardanelle, Arkansas, an eccentric hotel keeper known as—well, say Uncle John. He was violently opposed to the title of governor, declaring that he once knew of a gang of thieves whose pass word was governor; and on many occasions guests who thoughtlessly gave him the title, were driven from the house. Commercial travelers "got up" at his hotel. Those who were acquainted with his peculiarities took great delight in assuring drummers who had never before visited the town, that by calling the old man governor, special attention would be paid. One day Harry Collins, a young drummer for a New York house, decided to visit Dardanelle.

"By all means stop with Uncle John," said a companion. "He is the best feeder in the country; and—say, call him governor and he will nearly kill himself waiting on you."

"When Collins arrived he was received with a welcome that was delightful to contemplate; and during the course of affable conversation, Collins remarked:

"By the way, governor, how are—?" The old fellow became furious. He had been teased several times that day, and he knew that the title was intended to be an insult. The drummer became angry and swore that he would not stand such abuse.

"Come out here," said the old man. Collins followed and was conducted to the bank of the river, not far away.

"Now," exclaimed the old man, drawing a revolver, "we'll settle this thing. Two of us came down here. Only one of us will go back."

The drummer took out a pistol, half as long as his arm, and remarked:

"I'm going back."

"Well," said the old man, returning his own pistol, and eyeing the one held by Collins, "reckon that under the circumstances we'd both better go back."—*Transcendent Traveller.*

—The largest cigarette factory in the world is at La Haurdez, Cuba. It has a producing capacity of 2,500,000 cigarettes per day.

—Galena, Kan., the greatest zinc producing region in the world, gave out 3,000 tons of the metal last year.—*Chicago Herald.*

—North Carolina has 70,000 acres of tobacco this year in 87 of 95 counties. There were 60,000 acres last year. Farmers' profits are 61 per cent.—*Chicago Times.*

—The American railroad system, which now extends over about 100,000 miles, has cost something like \$500,000,000, and nearly four-fifths of that amount has been expended on the locomotives. These are estimated to be 38,000 rail and engines now in use, and their cost not less than \$10,000 apiece.—*Chicago Tribune.*
